

Modular distribution blocks

Conform to standard EN 60947-1
Connection with or without Starfix ferrules

Pack	Cat.Nos	Staggered bars distribution blocks		Number of modules	
		With removable pivoting cover (except for Cat.No 4 004 11) Quick and easy installation: - optimized wiring space and orientation of the bars - connections sized and positioned for ease of connection Transparent insulating protection between each bar and at the back of the distribution block Integrated system preventing accidental unscrewing of unused connections Fixing on rail Option of adding an IP 2X terminal block to increase the number of Earth or Neutral outgoing lines
